2 December 1965

JOINT IMAGERY INTERPRETATION REVIEW GROUP

R&D PANEL

Minutes of Meeting - No. 3 - 2 December 1965

1. The JIIRG R&D Panel met on 2 December 1965 at CIA with all members present except Mr. Reuben Spellman, DDR&E. The Committee was briefed on the general structure and functions of the NRO, with the objective of determining whether or not the activities of this organization would have to be explicitly considered by the Panel. The Committee concurred in the following:

- a. NRO programs are generally, but not completely, known to the Committee on Photographic Equipment (COPE).
- b. NRO sometimes provides funds for the development of image interpretation equipment, and sometimes does not.
- c. The exploitation equipment development work funded by NRO is not coordinated with the Image Interpretation Community.
- d. The R&D Panel needs to be briefed by appropriate NRO representatives on how it coordinates its development of equipment for image interpretation and precludes duplication.

2. It is believed that the Panel can best cover this area by participating as observers in the briefing of the JIIRG by the NRO, and subsequently covering in detail the area of image interpretation equipment R&D. Guidance from JIIRG is requested.

3. In the Minutes of Meeting No. 2 Dr. Rabben's name was misspelled.

NRO review(s) completed.
